Online Guide to Identifying Federally Assisted Properties

THE following is a list of local, state, and national online resources that may provide useful information for federally assisted properties in your area. The local and state resources listed below are government offices in Chicago and Illinois the Shriver Center utilizes, however, available information may vary by region.

Local Resources

Assessor's Office In Cook County, the Assessor's Office allows the public to obtain information on specific residential properties by identifying the address. The search will bring up a page with the desired Property Identification Number (PIN), corresponding address, city, neighborhood, township, age, description of class code, assessed value, and a description of the property's characteristics.

Recorder's Office The Cook County Recorder's Office website enables the public to locate documents on record (including mortgages, deeds, etc.) with the Recorder of Deeds through a PIN search. Once you locate the desired documents, you can purchase copies of them using an online account.

Department of Zoning The City of Chicago Department of Zoning website provides a data visualization map helpful when trying to identify property location.

State Resources

Secretary of State Illinois' Department of Business Services has a database where the public can view a File Detail Report on a particular corporation or limited liability company (LLC), obtain a Certificate of Good Standing on an existing entity, or conduct a preliminary search on the availability of a new company name. The database is a useful tool when searching for an LLC address.

State Housing Development

Authority (HDA) The Illinois HDA website includes a list of state HDA financed properties along with the following information:

- Annual Comprehensive Plans
- 5-year Consolidated Plan
- Qualified Action Plans for LIHTC Properties
- Financial and Disclosure Information
- Annual Report
- IHDA administers HAP contracts for HFDA properties ONLY
- IHDA also monitors 542(c) risk-sharing projects
- Any property with HDA tax-credits should be on the HDA website
- HDA will also post all notices *it has received* under the FAHP

National Housing Trust has an excellent database of expiring Section 8 contracts and information on 202, 811, and LIHTC properties. Go to www.nhtinc.org, click on subsidized housing data, and choose a state. The PDF is more accessible but the Excel spreadsheet provides more detailed information about each property.
