SHRIVER CENTER PRESIDENT AVAILABLE FOR EXPERT COMMENTARY ON
BIPARTISAN HEALTH CARE SUMMIT

John Bouman is a proven leader on health care reform

John Bouman has spent his career working as an advocate on behalf of people struggling in poverty. As an attorney and president of the Shriver Center, he works tirelessly to achieve social and economic justice for low-income people and communities. The Shriver Center focuses on eight issue areas to achieve its main goal. One of those areas is healthcare, and Bouman has been instrumental in the Center's efforts.

Recently he led the successful statewide effort to create the FamilyCare program to provide health care insurance to up to 300,000 working poor parents of minor children, and he was a leader in the successful advocacy to create All Kids, the first state program of universal coverage for children. Bouman is passionate about the need for healthcare reform, and has made it his business to learn the particulars of the bills currently in contention on a national level.

He is available, and eager, to offer intelligent commentary regarding the televised bipartisan healthcare summit taking place on Capitol Hill on Thursday, February 25th. As one of the most knowledgeable people on the issue in the state of Illinois, he should be on your show.
