The Shriver Center on Poverty Law fights for economic and racial justice. Over the past 50 years, we have secured hundreds of law and policy victories with and for people experiencing economic instability in Illinois and across the country.

Everything we do is powered by communities most affected by poverty. We litigate, shape local policy, and train and convene multi-state networks of lawyers, community leaders, and activists to advance opportunity for all—not just the few.

Our country is rife with laws and policies that systematically disadvantage certain groups while advantaging others based on their race, gender, and other facets of their identities. We believe laws and policies—and the institutions that apply them—should be designed to support people. Together, we're turning this ideal into reality.

We are building a future where all people, families, and future generations have equal dignity, respect, and power under the law. Join the fight at povertylaw.org.

Position Overview: The Shriver Center on Poverty Law is seeking a Director of Housing Justice to provide organizational leadership and management oversight of its work to ensure that people living in poverty, communities of color, and members of other protected classes have access to safe, decent, and affordable housing, and that the systems and structures that create and sustain racial segregation and markedly different outcomes for communities based upon their racial makeup are dismantled.
