

Community Lawyering

Introduction, Syllabus & General Information

Fall 2021

Community Lawyering is a process through which advocates contribute their legal knowledge and skills to support initiatives identified by directly impacted people and community groups that enhance their power. The Shriver Center’s Community Lawyering training brings a new mindset to legal aid and public interest law advocacy and provides concrete steps to build and sustain strong relationships with and among community members. In this course, you will learn how to activate issues identified by the community, support a successful advocacy campaign and facilitate community leadership.

Course Structure (all activities are online):

- In the Prep Week, participants attend one webinar (45’) and complete a number of self-paced activities (1.5 hours) via the course site.
- In Weeks 1 - 5, participants attend interactive live sessions and small group discussions where they have opportunities to apply new knowledge to prepared scenarios, share challenges with other participants and faculty, and practice specific community lawyering skills.
- Participants complete weekly between-session assignments. They also participate in weekly peer support meetings to share experiences applying new content and skills in their work with communities.
- **Time Commitments:** This training involves a significant time commitment. Since the training takes place over 5 weeks (see table below for details), it is essential that you clear your schedule for the scheduled sessions so you can participate in all activities. This is particularly important since many of the activities involve small groups and paired exercises that require involvement of all participants. **All times Eastern (ET); All activities online.**
